If you dare to visit the beautiful Stoneview Nature Center, be aware, if you aren't careful you may be taken by ZomBees!

The cruel zombie fly lays her eggs inside bees, and as her larvae hatch, these hungry maggots begin eating bees from the inside out.

This turns the bees into zombees, destined to walk aimlessly on the ground.

After the zombie fly maggots are full, they burst out of the bees, then metamorphosize into adult zombie flies – continuing this awful tale.

The hotel at
34°0'51"N, 118°22'37"W
is said to be haunted by
hordes of zombees.

Don't forget to take a photo with you and the haunted feature.

Post your photo to social media with the #ParksScavengerHaunt and tag us at @LACountyParks (Twitter/Instagram), @Parks.LACounty.Gov (Facebook).

Complete all Scavenger Haunt locations for a delightfully splendid prize.

Staff at the Nature Center
will give you a zombee-proof
sticker if you show us
your social media post.
